Old Business:

David Edwards with Silver Dollar City and Lisa Cardone with Kraft Foods have been selected to represent LEPC's/Industry on the Regional Homeland Security Committee.

New Business:

D. Compton reported that he and K. Helvey had participated in the Regional Strategic National Supply deployment exercise in Springfield on June 14th. He noted that over 1000 people received their "medication" in less than 3 hours. D. Compton was the After Action Facilitator on behalf of the Springfield-Greene County Health Department. He conducted the "hotwash" of those who participated at the Central High School Site. The biggest issues that were identified were security and patient flow. Compton and Helvey will take their experiences at Springfield and meet with K. King the Barry County Health

Department Administrator and compare notes with her experiences at the Taney SNS dispensing site. Together the OEM and Health Department will revise the Barry County dispensing plans, pandemic flu plans, and bio-terrorism plans. This represents an on-going cooperative planning project between the Barry County OEM and Health Dept.

J. Kelley reported that she will be attending training at the Noble Training Center at Anniston AL.

Recent Incident reports include;

Tyson Foods reported an Ammonia Release on 06-06-2006 at 2014 hrs. Tyson Officials notified the LEPD by 2020hrs of the possibility of a RQ release. Company responders had the situation contained and Monett City Fire had been notified. Tyson Foods Officials contacted the LEPD a second time about 2200hrs to update the situation and quantity. At that time the estimated quantity was 8.75lbs, which is not a RQ. Tyson Foods followed up with a written incident report on 06-08-06, after precise calculations it was determined that the actual amount released was 8.31lb. The reportable quantity (RQ) for ammonia is 100 lb.
